

# PBL

This presentation is going to teach everyone about how we learned to save water as a Engineer, Statistician, and a Marketer.

# Engineer { 2 people }

Emma- What I learned as an Engineer to save water is that saving water would be good for our community.

Hannah C.- What I learned as a Engineer was that you can make invention to make dirty water into clean drinking water.

# Statistician

Bradley- I've learned that in 2007, the estimated number of undernourished people worldwide was 923 million.

# Marketer

Antwione- What I learned is how to  
advertise with water.

# Why we should save water

Emma- We should all save water before it all runs out. Think of things that you could do to save water at your school or at your house.

Hannah C.- We should save water to live.

Bradley- We should save water because it's valuable to us and life.

Antwione- We should all save water for everybody and every animal.

# This is Earth

This is what it will look like  
if we don't have any more  
water

Our Invention
